

Master**Test Cases****Registration form** 5**C65: Successful registration with valid credentials completes all onboarding steps and redirects to Home feed**

Type	Priority	Estimate	AI Automated Test
Functional	Critical	None	None
References	Automation Type	Is Automated	
None	None	No	
Test Case Labels			

Preconditions

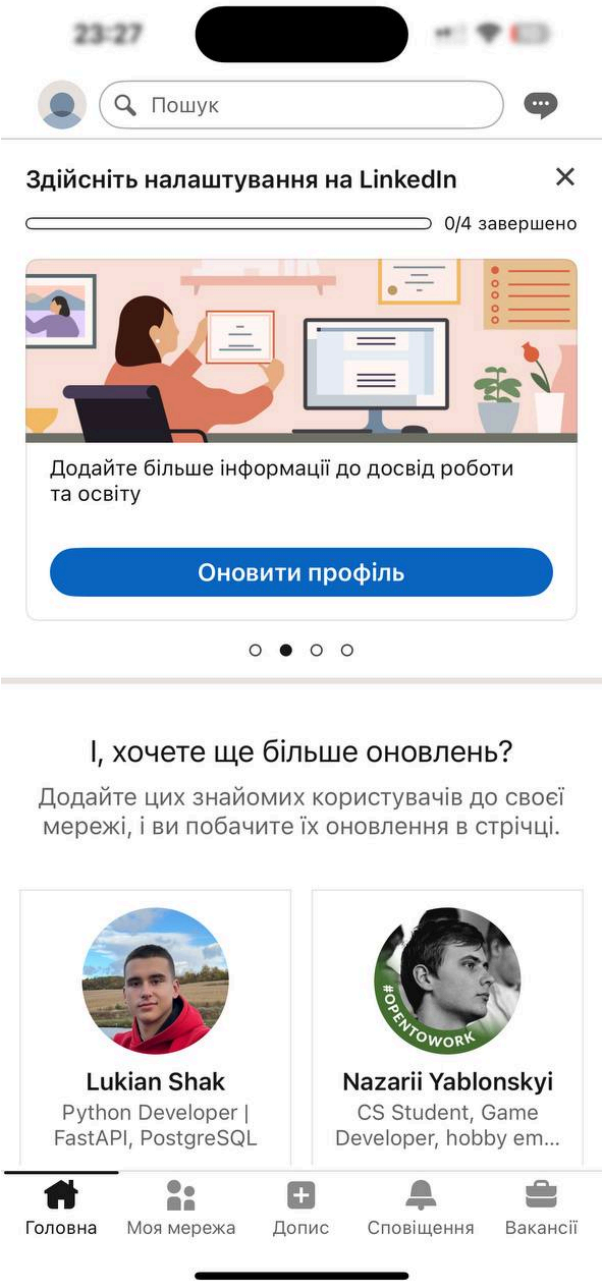

- LinkedIn Mobile App v9.2.632 is installed on iPhone 14 Pro (iOS 18.6.2)
- Device has stable internet connection
- The email address hnidets09iryna03@gmail.com is not registered in LinkedIn
- User is on the LinkedIn Welcome screen

Steps

- Tap "Прийняти та приєднатися" on Welcome screen
- Enter valid email: hnidets09iryna03@gmail.com -> Tap "Прийняти та приєднатися"
- Enter valid password (6+ characters) -> Tap "Прийняти та приєднатися"
- Enter First name: Test, Last name: User → Tap "Продовжити"
- Verify auto-detected region (Lviv, Ukraine) -> Tap "Продовжити"
- Toggle ON "Я студент(-ка)" -> Enter university, degree, specialization, start year -> Tap "Продовжити"
- Open email inbox -> find LinkedIn verification email -> copy 6-digit PIN code
- Enter 6-digit PIN code in verification field -> Tap "Продовжити"
- Select career interest ("Так, я активно шукаю нову роботу") -> Tap "Продовжити"
- Tap "Продовжити" on profile photo screen (skip photo)
- Tap "Продовжити" on "Пришвидшити роботу з мережею" screen
- Tap "Вибрати контакти" or "Пропустити" on contacts screen
- Observe the final screen

Expected Result

Account is created successfully. User is redirected to LinkedIn Home feed. Profile initials are visible in top-left corner. Onboarding banner "Здійснить налаштування на LinkedIn — 0/4 завершено" is displayed.

C66: Registration is rejected when using an already registered email

Type	Priority	Estimate	AI Automated Test
Functional	High	None	None
References	Automation Type	Is Automated	
None	None	No	
Test Case Labels			

Preconditions

- LinkedIn Mobile App v9.2.632 is installed on iPhone 14 Pro (iOS 18.6.2)
- Device has stable internet connection
- The email hnidets09iryna03@gmail.com is already registered in LinkedIn
- User is on the LinkedIn Welcome screen

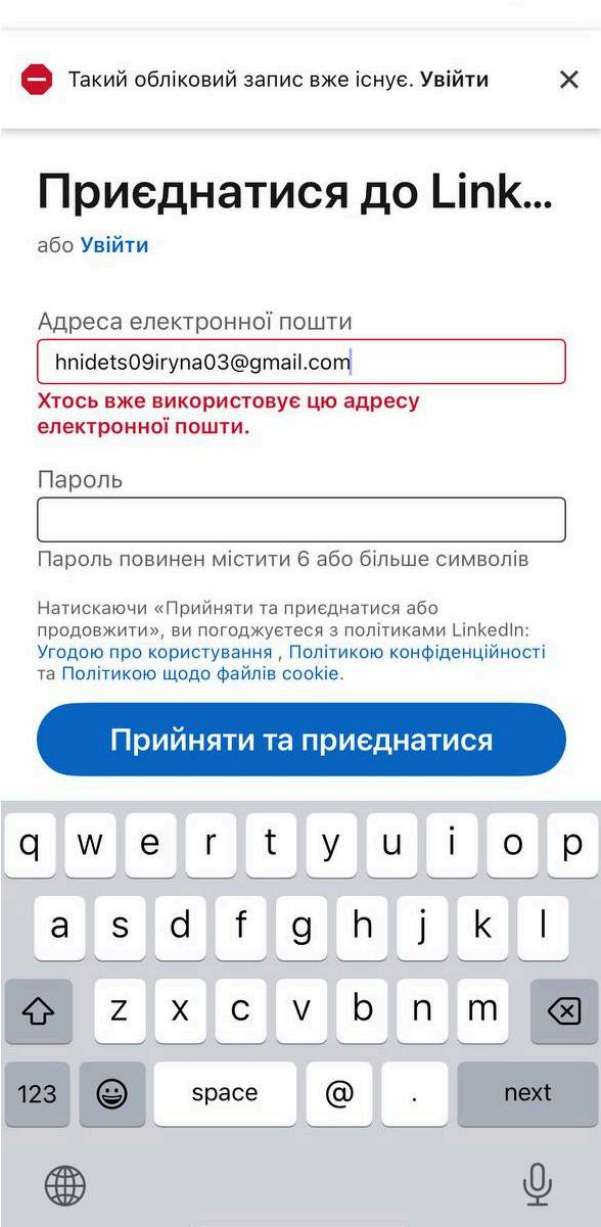

Steps

1. Tap "Прийняти та приєднатися" on Welcome screen
2. Enter already registered email: hnidets09iryna03@gmail.com

- 3. Tap "Прийняти та приєднатися"
- 4. Enter any password: TestPass123
- 5. Tap "Прийняти та приєднатися"
- 6. Observe the system response

Expected Result

CAPTCHA challenge is displayed (image selection puzzle). After passing CAPTCHA user receives an error message indicating the email is already associated with an existing LinkedIn account. User is NOT able to complete registration with this email.

C67: Registration is blocked when password contains fewer than 6 characters

Type	Priority	Estimate	AI Automated Test
Functional	High	None	None
References	Automation Type	Is Automated	
None	None	No	
Test Case Labels			

Preconditions

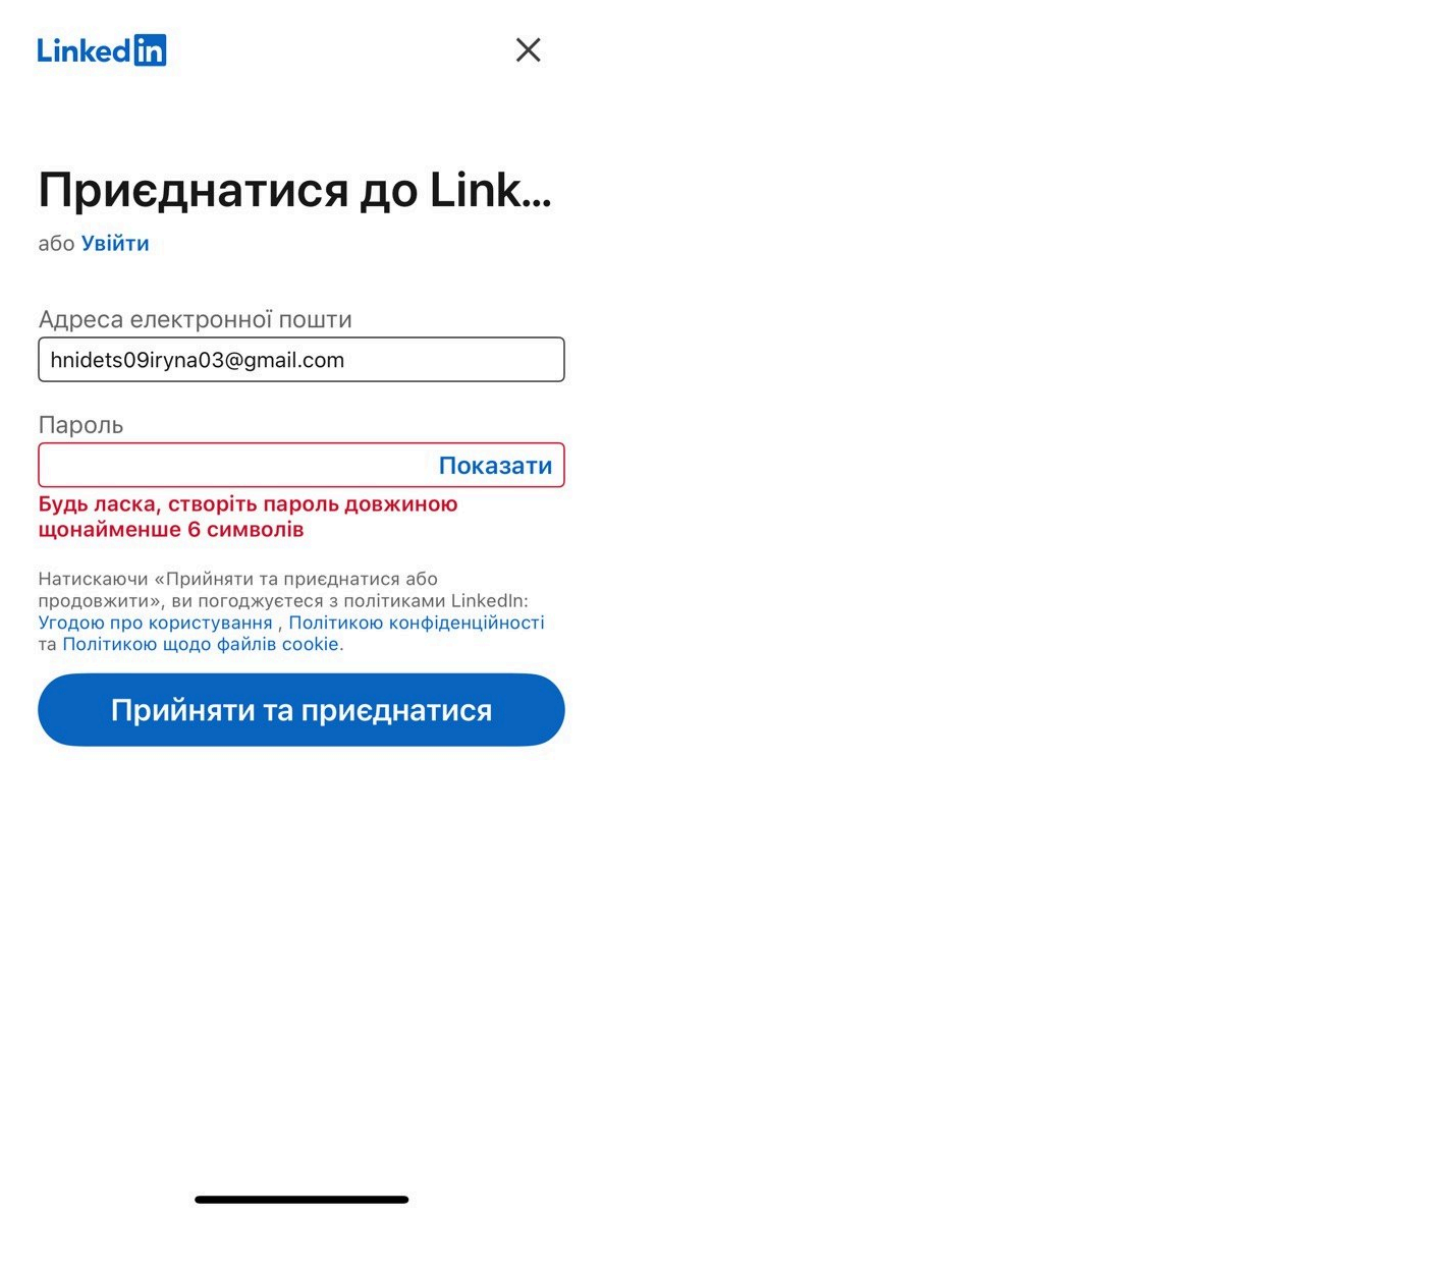

- LinkedIn Mobile App v9.2.632 is installed on iPhone 14 Pro (iOS 18.6.2)
- Device has stable internet connection
- The email hnidets09iryna03@gmail.com is not registered in LinkedIn
- User has completed the email step and is on the Password screen

Steps

1. Enter password with only 5 characters: Pa123
2. Tap "Прийняти та приєднатися"
3. Observe the validation response

Expected Result

Validation error message is displayed: "Пароль повинен містити 6 або більше символів". User cannot proceed to the next registration step.

C68: Registration is blocked when Last name field is left empty

Type	Priority	Estimate	AI Automated Test
Functional	Medium	None	None

References	Automation Type	Is Automated
None	None	No
Test Case Labels		

Preconditions

- LinkedIn Mobile App v9.2.632 is installed on iPhone 14 Pro (iOS 18.6.2)
- Device has stable internet connection
- User has successfully completed email (hnidets09iryna03@gmail.com) and password (Test12345) steps
- User is on the "Додайте ім'я" screen

Steps

1. Enter First name: Ira
2. Leave Last name field completely empty
3. Tap "Продовжити"
4. Observe the validation response

Expected Result

Validation error "Введіть прізвище" is displayed below the Last name field. User remains on the same screen and cannot proceed to the next step.

C69: Toggling "Я студент(-ка)" changes the work experience form to student fields

Type	Priority	Estimate	AI Automated Test
Other	Medium	None	None
References	Automation Type	Is Automated	
None	None	No	
Test Case Labels			

Preconditions

- LinkedIn Mobile App v9.2.632 is installed on iPhone 14 Pro (iOS 18.6.2)
- Device has stable internet connection
- User has successfully completed email, password, name and region steps
- User is on the "Яким є ваш останній досвід роботи?" screen
- "Я студент(-ка)" toggle is currently OFF

Steps

1. Observe the form in default state — "Посада" field is visible

2. Tap the "Я студент(-ка)" toggle to switch it ON
3. Observe the form fields after toggle

23:15

Яким є ваш останній досвід роботи?

Ви завжди можете змінити це пізніше.

Я студент(-ка) ☒

Школа, коледж або університет*

Приклад: Бостонський університет

Ступінь

Приклад: бакалавр мистецтв

Спеціалізація*

Приклад: ділове адміністрування

Рік початку*

2026

☒ Мені більше 16 років

Expected Result

The "Посада" field disappears.

The form updates to display student-specific fields: "Школа, коледж або університет*", "Ступінь", "Спеціалізація*", "Рік початку*", and checkbox "Мені більше 16 років"
